## ES Open HF Championship 2009

### **DD1IM, Sascha:**

Hi dr estonian ops, I like the ES-people & love the ES-test. Limited op-time with interrupts, 80w & toy antenna - so it was just for fun - yeah, but I enjoyed, did meet agn mni ES-friends - ufb!!!

Tnx 2 all ops for qsos es ERAU for contest & work, vy 73, gl es cwfe de Sascha DD1IM(member of DARC, DOK K27)

### **DG1EA, Ben:**

The contest is very complicated, please check my calculation!  
I logged with UCX-Log, logs generated as CBR and LOG/SUM as the WPX Contest, to get the multipliers, then I changed in the log-file the points, per QSO one point, duplicates also one point:

I have 4 diff. regions on 80 m, 9 regions on 40 m, so I multiplied my 22 QSO=B4s with 13 multis. I hope this is correct.

Rig: FT-1000MP; Ant: W3DZZ + HF9V

### **DL5AXX, Ulf:**

It was a pleasure to give out some points...

Maybe cu in summer. I'll visit the Baltic countries starting in ES just after the IARU-HF-Championship.

### **DL8QS, Heiko:**

Thanks fer fb contest! 73's to all station wrkd me!

### **ES1AN, Andres:**

Jõudu logide kontrollimisel.

**ES1CW, Arvo:**

Jama selle paberilt ümberkribamisega sellesse leeduka logisse. Aga kui juba alustasin, siis tegin ka lõpuni. Ja pärast oli tükk aega sõrm suus, et sabad ja sarved kokku saada...

Vahepeal on saanud selgust Gustav Naani abil - omad vead. Mõned <varesed> ei olnud õiges puuris... Seda 2010.a. oleks saanud ära praavitada enne kui alustasin logi järeltoksimist... Leedukas on ikka mõtelnud inimestele s.o. siis sellistele, kes kasutavad tema logiprogrammi sihipäraselt ehk jooksvalt contestis. Minusugused <järelkirjutajad> ei lähe arvesse, hi. Oma viga. Aga <onlines> täitsa kasutuskõlbulik. Huvitav, milliseid üllatusi ta pakub CQWW testides, peaks harjutama et mis värk on võrreldes TR-ga.

**ES1IP, Raul:**

Rig: YAESU FT-900; Ant: Dipole, Vert.

**ES1LBK/2, Sven:**

Rig: TS-2000; Ant: 80m loop, 40m dipole

**ES1LS, Harald:**

Tulemus palun arvestada ka Põhja Eesti Raadioklubi üldskoori hulka (F)

Rig: FT-897 / 100W; Ant: delta 80m; dipole 40m

**ES1OV, Enn:**

Tänud Jürile ES5JR excel - cabrillo konverteri eest! Tubli töö!

**ES1QD/0, Vello:**

Rig: YAESU FT-920, PA: 500W; Ant: 80/40 dipole

**ES1QX, Eduard:**

Rig: IC-706 100w; Ant. Delta Loop

**ES1TU, Aadu:**

Radio: ICOM IC-756 Pro 3; Amplifier: Ameritron AL-80B; Antenna: 43ft vertical

**ES2MC, Arvo:**

Staatilises lumetormis aitasid beverage'id palju, muidu ei oleks ilmselt nt 40m-l vahepeal eriti sidet saanud...

**ES2QN, Mati:**

Rig: 60w; Ant:Dipole

**ES2THH, Hillar:**

See on viimane osavõtt, kuna käsitsi arvutisse sisse lüüa on tülikas. Tore, et ei osalenud eriti aktiivselt.

Juhul kui on kellegil soovitada head logiprogrammi siis on teretulnud.

**ES2U, Toivo, ES2DJ:**

Rig: IC-7000; PA-1kW; Ant: 80m Loop, 40m dipole.

**ES3CC, Anton:**

Rig: IC 7400 100w; Ant: W3DZZ

**ES3RY, Jaan:**

Rig. Home made QRP TRCVR 10w. Output.

See you next year !  
Best 73!

Rig: K2 from Elecraft + 100 watts  
Ant: 2X20 m doublet at 10m high

**G0ADH, Bob:**

Nothing on 80mtrs after the first hour or so. Conditions on 40mtrs between ES and UK were not very good - and remained the same throughout the contest. Very much enjoyed joining in with the ES contest.

Rig: FT847; Ant: G5RV

**IN3FHE, Helga:**

My first ESopen contest. Thank you for invitation, sorry that I had few time . Bad conditions on 80 m., and better on 40 , with my vertical multiband antenna and IC-756pro3.

Greetings de IN3FHE, Helga/Ina

**LY2NK, Algis:**

Tnx. 73!

**LY3BB, Rimgaudas:**

Rig: home made  
Ant: home made

**LY9A, Gediminas:**

Last 15 minutes were quite productive on 40m, ES signals were building up.

Rig: FT-990AC; Ant: 80m-Dipole, 40m-loop

**NL-8992, Anthonie:**

This is my contestlog of your very pleasant contest.

I just discovered it and put some stations in the log and learned about the contest rules only later after the contest. So next year I will try to be more fanatic, hi.

My RX Kenwood R-1000 and antennas were 60 meter beverage to the east and 10 meter long vertical wire in big chestnut tree behind my QTH, which is a 19th century farm house far of the road (at least to Dutch standards).

Best 73 to the committee es cu next year.

**OH2836, Kari:**

Mielenkiintoinen kilpailu, vaikka skippi ei tänne noin 100 km:n päähän 40 mb:lla  
Kolmen ensimmäisen tunnin aikana kunnolla osunutkaan, jopa espanjalaiset ja italialaiset tulivat voimakkaammin.

RX: Icom R9000; Ant: Multiband dipole, Horizontal V-dipole.

**OH2LNH, Heikki:**

FT-897D, 100W, G5RV

Rig: IC-706 50w; Ant: Inv-L

**VK4TT, Keith:**

I found the bands dead.

Rig: Yaesu FT1000MP; Ant: Inv "Vee".

**YL2BJ, Vilnis:**

Where are you Estonian guys? Economical difficulties ???  
Snow storms within a 10min interval made 40m band too noisy listening on  
40m steppir ant. No chance to make SSB qso on 40m. Cuagn next year!!!

**YL2GUV, Janis:**

Rig: ICOM-751 80W; Ant: LW

**YL2HK, Pavel:**

Rig: TS-570; Ant: Inv-V.  
73!!!

**YL2KO, Alex:**

FB!

**YL7X, Arvis:**

Tnx for nice contest!

Good propagation on 80m, also last 30 minutes on 40m, that was quite good  
for multipliers on 40m :)))

Thanks for nice plaques 2005-2006 !

73!
